

WIRING SCHEMATIC FOR DEF METERING SYSTEMS USING 84097 12V RELAY

Wiring LectroCount LCR 600 & LCR-II Registers to Banjo Ball Valves

Wiring LectroCount Registers and Banjo Electric Ball Valves

In Liquid Controls' DEF metering systems, Banjo electric ball valves are opened and closed by a LectroCount LCR 600 or LCR-II electronic register. Wire the valve to the register using 84-07 12V relay switch, as indicated above.
